

REFERRAL PARTNER TRAINING PACK

Everything you need to refer customers and store partners, and earn commission

Version 1 (DRAFT) | July 2026

iZinga — operated by Curiousoft (Pty) Ltd | Reg. 2016/429327/07

DRAFT — not yet live

This programme is pending final legal review and is still being built. Do not distribute this pack to prospective Referral Partners until iZinga confirms the programme has launched.

Welcome to the iZinga Referral Partner Programme. This pack tells you exactly what iZinga is, how to refer customers and store partners, what you earn, and what to say (and not say). Read it once — then go earn.

R15

flat, food customer referral

5%

once-off, furniture referral

R250

total, food store referral

WHAT'S INSIDE

1	What is iZinga?	The product, the mission, who uses it
2	Your role as Referral Partner	The three referral types, what you do and don't do
3	How referrals work	Your referral code, step-by-step for each type
4	How you get paid	Commission per referral type, payouts
5	Using your dashboard	My Referral Code, My Referrals, My Earnings
6	What to say	Pitch guide and key messages
7	Rules & prohibited conduct	Do's, don'ts, and consequences
8	FAQs	Common questions answered

What is iZinga?

iZinga is a same-day delivery platform that connects customers and businesses with independent delivery drivers and messengers. Think of it as the infrastructure that powers last-mile delivery for food, groceries, parcels, and furniture.

Who uses iZinga?

- Customers – individuals who need something delivered quickly
- Stores & restaurants – businesses that need reliable same-day delivery
- Drivers & messengers – independent contractors who earn per delivery
- Ambassadors – a separate programme that recruits drivers
- Referral Partners (you) – people who refer customers and store partners and earn commission

Not the same as an Ambassador

iZinga Ambassadors recruit drivers. You are a Referral Partner – a separate role that refers customers who order food or furniture delivery, and local shops, supermarkets, and restaurants that want to sell on iZinga. Different role, different agreement, different commission structure.

SECTION 2

Your Role as Referral Partner

As an iZinga Referral Partner you are an independent contractor — not an employee. You can refer in three ways:

- Food Customer Referral — refer someone who orders food delivery on iZinga
- Furniture Customer Referral — refer someone who books a furniture delivery on iZinga
- Food Store Partner Referral — refer a local shop, supermarket, or restaurant to sign up as a store partner

You ARE responsible for:

- Sharing your unique Referral Code or referral link
- Explaining what iZinga is and how the person or store benefits
- For store partners: sitting with the store owner while they register on biz.izinga.co.za and set up their menu
- Answering basic questions using info in this pack

You are NOT responsible for:

- Approving or rejecting any customer or store application
- Charging anyone a fee for registration or your help
- Promising specific earnings or approval timelines
- Configuring delivery or vehicle pricing — this is calculated automatically by iZinga
- Signing anything on iZinga's behalf

Referring a customer is different from referring a store

Sharing your referral link with a customer is enough — they register themselves. For a store partner, you sit with the owner while they register and set up their menu. Either way, you never take custody of anyone's documents or personal information — only the referred person or store owner enters their own details.

Important

iZinga approves every customer and store independently. Referring someone does not guarantee approval or a sale. Never promise an outcome iZinga has not published.

How Referrals Work

iZinga tracks every referral through your unique Referral Code. Share your code or referral link – the person you refer clicks it and registers themselves. This is the only referral method covered in this version of the pack.

1 Get your Referral Code

Open your Referral Partner dashboard and go to My Referral Code. Your unique code and shareable link are displayed there.

2 Share your link

Send your referral link on WhatsApp, social media, or in person – to a prospective customer, or to a local shop, supermarket, or restaurant owner.

3 They register themselves

The person or store owner clicks your link and completes their own registration on iZinga's platform (or biz.izinga.co.za for stores). Your Referral Code is captured automatically.

4 For stores – help with the menu

If you referred a store partner, you may sit with the owner and help them set up their menu categories, items, and prices. You do not configure delivery pricing – iZinga calculates that automatically.

5 Qualifying action happens & you earn

Once the referred customer completes their first order, or the referred store is approved and completes its first order, your commission is triggered. See Section 4 for exact amounts.

Your referral link format

Customers: izinga.co.za/join?ref=YOUR_REFERRAL_CODE

Stores: biz.izinga.co.za/register?ref=YOUR_REFERRAL_CODE

Find your personal code and both links on your dashboard under My Referral Code.

SECTION 4

How You Get Paid

Three referral types, three commission structures. All are paid once — none are ongoing or per-order.

Referral Type	You Earn	Paid When
Food Customer Referral	R15.00 flat	Referred customer's first completed food order
Furniture Customer Referral	5% of the delivery charge	Referred customer's first completed furniture delivery
Food Store Partner Referral — Stage 1	R100.00	Referred store is approved and listed
Food Store Partner Referral — Stage 2	R150.00	Referred store's first completed customer order

Food store partner referral pays out in two stages, up to R250.00 total per store.

What does NOT earn commission

- A customer who registers but never places an order
- A store that registers but is never approved
- A person or store you did not refer (your Referral Code must be in their registration record)
- A customer or store you have already earned commission for — each one pays out once only

Setting up your bank account

To receive payouts, add your bank account details in your Referral Partner profile. iZinga supports all major South African banks and e-wallets.

Important — no bank details, no payout

Commission accrues in the system whether or not you have bank details. But it will not be paid out until your bank account is correctly captured. Set this up before your first referral qualifies.

Using Your Dashboard

Your Referral Partner dashboard has four cards:

Card	What it does
• My Referral Code	Shows your unique code and shareable links for customer and store referrals.
• My Referrals	Lists everyone who registered through your link and their current status, grouped by referral type.
• My Earnings	Shows your commission history — pending and paid — with a running total.
• My Agreement	Your signed Referral Partner Agreement. You can review it any time.

Tip — check [My Referrals](#) regularly

If a referred store still shows as pending, follow up with the owner to check their registration and menu setup are complete. iZinga cannot approve incomplete store applications.

What to Say

Use this section to guide your conversations. Keep it simple and honest.

Pitching a customer

"iZinga is a same-day delivery app for food and furniture. Registration is free. Use my link and you're set up in a couple of minutes."

Pitching a store owner

"iZinga can list your shop for same-day delivery to local customers. It's free to join. I can sit with you and help you get registered and your menu set up — it usually takes under an hour."

Key messages

- Free to join — registration costs nothing, for customers or stores
- No guarantees — iZinga approves every customer and store independently
- Same-day delivery — the core reason people and stores use iZinga
- One link does it all — your Referral Code works for customers and stores

What NOT to say

- X "You will definitely be approved" — iZinga decides, not you
- X "You will earn R[X] guaranteed" — commission depends on the referred party completing a qualifying order
- X "I'll set up your delivery pricing" — this is calculated automatically, you cannot configure it
- X "I can register this store/account for you without you being involved" — the referred party must always be the one registering and consenting themselves in this version of the programme

Rules & Prohibited Conduct

Your Referral Partner Agreement sets out the full rules. The most important ones are summarised here. Breaching these can result in immediate termination and forfeiture of unpaid commission.

Rule	Detail
No charging anyone	You must never charge a prospective customer or store owner any fee – registration or otherwise.
No false claims	Do not guarantee approval, earnings, or any outcome iZinga has not published.
Leave documents to the referred party	You may sit with a store owner during setup, but never take custody of their documents or personal information on iZinga's behalf.
No pricing configuration	You must never configure delivery or vehicle pricing. This is calculated automatically by iZinga.
No link manipulation	Do not attempt to bypass the Referral Code tracking system or claim commission for people or stores you did not refer.
Brand usage	You may use the iZinga name and logo in referral materials, but they must be accurate and not misleading.
Confidentiality	Keep iZinga's commission rates, approval criteria, and business information confidential.

Your Agreement

The full terms of your Referral Partner Agreement are available in your dashboard under My Agreement. You accept these terms electronically when you enrol. Read them if you have any doubt about what is permitted.

Frequently Asked Questions

When do I get paid?

Commission is triggered when the referred customer places their first qualifying order, or when a referred store is approved and completes its first order. It is paid in iZinga's next scheduled payout run.

How do I know if my referral qualified?

Check My Referrals on your dashboard. It shows every person or store you referred and their current status.

Can I refer someone who already uses iZinga?

No. If the person or store already has an iZinga account, they are not a new referral and no commission applies.

Is there a limit to how many people or stores I can refer?

No. There is no cap. Each qualifying referral earns commission once.

Can I use the direct-action method — placing an order or registering a store myself on someone else's behalf?

Not yet. This version of the programme only supports sharing your Referral Code or link — the referred customer or store owner must register themselves. A future version may add this, but it is not available now.

What if a customer or store owner asks me for money?

Registration is always free. If anyone is told they need to pay, they should report it to iZinga support immediately. You must never charge for referrals.

Can I be both an Ambassador and a Referral Partner?

These are separate roles with separate agreements. Check with iZinga support if you want to hold both.

How do I contact iZinga support?

Reach out through the iZinga app or email support@izinga.co.za for referral partner queries.
